

Request for an Exemption/Disclosure

Under Section 112.313 (12) (h), Florida Statutes

Under Florida law, a University employee is not permitted to have an ownership interest in, or be employed (as a consultant or otherwise) by a business entity contractually supporting the employee's research or teaching activities. Similarly, a University employee may not have an ownership interest in, or be employed by (as a consultant or otherwise), a business entity licensing technology invented by the employee from the University of Central Florida (UCF) or the University of Central Florida Research Foundation (UCFRF). In 1986, in order to facilitate technology transfer and related research, the Florida Legislature passed an exemption to the general law that allows these relationships after approval by authorized University officials and the Chair, Board of Trustees.

Requisite to any approved exemption is the full disclosure of the outside activities and interests involved, which is made in the Potential Conflict of Interest form. If the exemption is granted, a monitoring plan to mitigate potential conflicts is generally required.

If this Exemption is granted, it will become effective on the date this Request for Exemption is approved by the Chair of the University's Board of Trustees and will extend for the term requested, ending on August 7th on that final year.

The exemption will cover only the license and/or research agreements disclosed in this Request for Exemption/Disclosure.

Additional information about the UCF's Conflict of Interest review process, outside activities and financial interests including the need for a request of an exemption (this form) can be found at:

<http://www.coi.ucf.edu/about.html> and at <http://www.coi.ucf.edu/forms.html>
